

Making a difference

Welcome to Atlantic Neurosurgical Specialists (ANS). For over 50 years, we have combined knowledge, experience and innovative surgical techniques to provide our patients with the latest technology, treatments and care.

Our fundamental philosophy and goal is to provide excellent neurosurgical care to our patients as well as provide a positive experience with our practice. Our highly trained and dedicated clinical staff consisting of our neurosurgeons, nurse practitioners, and experienced and competent support staff strive to provide exceptional customer service with open, direct and supportive interaction with our patients and their families.

**ANS targets
all your
neurosurgical
needs.**

**Working with our patients
to ensure the best care is
provided**

ANS has worked diligently to develop a financial policy that will work for most of our patients. Regardless of what insurance you have, we are always happy to give you information, work with you, and provide as much help as we can with processing all of your claims. ANS participates in the following plans:

Medicare

Medicaid

Beech Street

Multiplan

Qualcare for Barnabas Health Employees

Coresource for Atlantic Health Employees

Beech Street and **Multiplan** are third party payers that administer plan coverage for many of the major carriers such as **Aetna, Oxford, Blue Cross/Blue Shield**. If your employer negotiated to use **Beech Street** or **Multiplan** as their plan administrators then you will find it written on the back of your insurance card. It might just have a Beech Street logo or Multiplan logo. In that case, we would most certainly participate in whatever plan your employer purchased for you. Look on your insurance card.

Regarding all other **PPO, POS, Traditional and EPO plans**: If you need surgery, we will call your carrier to authorize the procedure. Once authorized, we will proceed with submitting your claim. Our experienced billing staff will work with your carrier to negotiate the best possible reimbursement thereby limiting any out-of-network balance to you. Your deductible

and co-payment will be billed to you and we are very willing to work out a payment plan that works for your financial situation. Estimates are available upon request. Please give us five working days to forward the estimate to you.

If you have an HMO plan, please be sure to get an out-of-network authorization to come for your office visit or consultation. Should your primary care physician want you to follow through with our group for surgery, they will need to obtain an authorization for you to go out-of-network. Once that is done, we will contact the HMO with the authorization number. If they deny coverage for you to come here, we will present you with alternatives.

If you are an inpatient at one of our participating hospitals please call your insurance carrier or our office to get complete details of your coverage.
973-285-7800

Atlantic Neurosurgical Specialists will work with you and carrier to ensure you have all the information about your coverage and payments you may or may not need to provide. Our main focus is getting you well and will work with you and your insurance company to get you the best possible experience.

Thank you for choosing Atlantic Neurosurgical Specialists.
